

Creating & Managing Lists

Creating & Accessing Lists

- From your TSCOnline Mobile App homescreen, locate and tap the icon labeled "Lists".
- Once you have tapped the "Lists" icon, you will be taken to the lists page. Here you will see all lists you currently have access to (including lists that have been shared with you).
- To create a list, simply tap the three dots in the upper right hand corner and follow the on screen prompts to complete your list creation.

Adding to Lists

- Creating lists becomes faster and easier than ever with the "Quick Order" mobile scanner.
- Scan TSCO barcodes to quickly gather items for your list and when you're ready, tap the three dots in the upper right hand corner to add your items to a list.
- From here you can either add your items to a preexisting list or you can tap the option toward the top of your screen to create and add your items to a new list
